

# iOS Developer

Belgrade

Tele Go is a Belgrade based IT company dedicated to developing tailor-made software solutions. Our approach is designed to support projects of various size and scope and help businesses define product functionality with greater flexibility and control. Company's current key focus areas include Web Development, Mobile App Development, Billing and Payment Solutions, VOD and OTT Solutions, IVR and Smart Vending Machines.

We are expanding our Client Application Development team and are looking for an experienced and talented iOS Developer to participate in creating great products with us!

## Job Summary

As an iOS Developer, you will be working with the rest of the App Dev team to provide a great client experience across a wide range of applications and platforms. We create in a fun, fast paced, agile environment alongside a close-knit team that is excited about adding new members to accomplish more features. All of our applications are 100% native and use the latest design guidelines.

## Responsibilities

- Design and build applications for the iOS platform;
- Ensure the performance, quality, and responsiveness of applications;
- Collaborate with a team to define, design, and ship new features;
- Identify and correct bottlenecks and fix bugs.

## Match your profile

- 4+ years of experience;
- Deep understanding of Swift and iOS app development and familiarity with different;
- iOS frameworks (Android knowledge is a plus);
- Familiarity with iOS dependency management tools (Cocoapods, Carthage);
- Experience with using RESTful APIs;
- Understanding of iOS design principles and guidelines is a plus.

### **We offer**

- Full-time employment;
- Career opportunities;
- Challenging tasks in a highly professional environment;
- Working in small and exceptionally skilled teams;
- Competitive salary and conditions corresponding to high demands of the position.

If you're interested in joining our team, please send your CV to [hr@telego.rs](mailto:hr@telego.rs)
